Permit Sales
The exceptional efforts of a few of our members have shown immediate results in the number of permits sold by our club last winter. We are getting closer to the numbers of the "good old days". Thanks a lot.

Help promote the **"Buy where you ride"** motto and we all benefit from that with improved and well maintained trails.
Online sales were up, they are so convenient. Why drive your car or truck to the permit outlet, when you can order from home and get the permit shipped right to your doorstep?

To purchase a permit in person, or over the phone, give Ursula Nussberger a call at 613-336-2034 or check online for the list of outlets in our area.

Trails
We are continually improving our trails. Be it a new culvert, a layer of gravel, brushing, or leveling the grade of a hill, so the groomer can maneuver better. Have you checked the convenient way to see the trails status in our area? It's easy and improvements to the computer system for next season will give even faster response and more details if requested. You can also purchase the GPS routes for your mobile device and be on your way in no time.

Landowners
Do you realize that this club has almost 100 landowners that give us the right to use their property? The club is doing its part by maintaining a good relationship with the owners and sends out a "THANK YOU". You the snowmobiler can do your part by obeying the rules: Only ride on the marked trail!

ATV's are not allowed on trails leading through private property!
Please do not trespass.

Volunteers
THANKS to all the volunteers for their many hours of contribution.
Are you interested in helping out? Call Susanne Lauper at 613-379-2145 or send us an email! We always have many different tasks that we are working on.
